

# WEEKLY WILDCAT

Volume IV, Issue 9 November 9, 2007

## Congratulations to our students of the month

Written by: Miss Weisner

Kasey is the daughter of Greg and Lisa Sosby, whom she says are her heroes because they always told her she could be anything she wanted in life as long as she strived for success. Kasey is a member of National Honor Society, band, journalism, and the softball team. She says playing on the softball team with all of her fun and hilarious teammates is her favorite thing about being a Ladycat. Her favorite sub-

jects are math, English, and sociology. Mrs. Gray is Kasey's favorite teacher "because she always explains things in full detail and would offer extra help to any student."

Graham is the son of David and Kimberly Douglas, and he is involved in soccer and drama club. His favorite subject is English because he wants to become an author. Graham's favorite thing to do is read books, especially those in the genre of historical fiction.

His hero is Simon Kenton, a frontiersman who opened up the Ohio and Kentucky wildernesses for settlers. Good job, Graham!

## E. Coli Found in Foods

Written by: Rebecca Herzog

In Burlington, Vermont citizens are warned not to eat Totino's or Jeni's frozen pizzas topped with pepperoni. A recent E. Coli examination has tested positive and is dangerous to all. There have been no reported cases in Vermont, but cases have been reported in nearby states. Nationwide, 21 cases in ten states have been reported. There has been a recall of almost 414,000 cases of pizza, so throw out any pizzas made by Totino's or Jeni's to stay safe.

## Students Bound for College

Written by: Ash P.

On Thursday, Juniors and Seniors headed to Hillsboro High School for their annual College Fair. There were over 50 colleges and universities that were offering information about tuition and enrollment. It was a great experience for students looking for answers about their futures! See second page for more photos.

## Senior Spotlight

Written by: Britanni Cresie

Ashley Priest aka- Ash P is in the senior spotlight this week. She was born January 4, 1990 at Washington Court House. She is the daughter of John and Janet Priest. Ashley's favorite color is red. Her favorite vacation spot is Panama City Beach, Florida. If Ash P could go anywhere in the world it would be Europe. I asked her if she would prefer to

write with pen or pencil; she said neither because they both require work. Ashley's plans after she graduates from high school are to move to Florida and sell ice cream on the beaches while being a bum. No, that was just a joke. In all reality after high school she plans to go to Ohio State University to become a RN.

## Jesse's Fun Facts

- When you blush, the lining of your stomach also turns red.
- When hippos are upset, their sweat turns red.
- Google is actually the common name for a number with a million zeros.
- The sound you hear when you crack your knuckles is actually the sound of nitrogen gas bubbles bursting.

## 50 Inning Game A Big Success

Written by: Mr. Veidt

This year the 14th annual 50 Inning Game was a big fundraising success for our baseball team. To date, we have raised \$579. We had planned on using the money to purchase new game jerseys, but seven returning players have yet to turn in any of the pledges, so this plan is looking very bleak. Matt Valandingham has turned in the most pledge money with a total of \$242. Ethan Eyre was named the M.V.P for the black team and Ben Harmon for the orange team. The black team won the game 47-27. After eight consecutive years of game play, we were forced to hold five hit-a-thons due to inclement weather. It was nice to hold the event outside this year after having to hold the event in the gym for the past five years.

## Going Green

Written by: Current Events Class

NBC is currently running an environmental campaign called "Green is Universal" while entertaining, informing and empowering Americans to lead greener lives. The Green Movement is based on political ideas such as democracy, social justice, ecology, and environmentalism. It begins at the "grass roots" level with the conscious effort of individuals. Although "Green" organization is sometimes thought to be left-wing, the basic ideology can be found in the principles of political organization in both the right and left parties.

Green Tip of the Day-- Stop adding waste. Instead of using a paper or plastic cup, invest in a mug and use that throughout the day. For more green tips and information on "Green is Universal" log onto [www.nbc.com](http://www.nbc.com).

## Ryan's Question of the Week
