## NHS AND JOGS COMBINE FOR TOWN CLEANUP

Written by: *Stephanie Docter*

On Friday, April 17, the National Honor Society and JOGs members combined for a cookout and town cleanup. All students contributed items for the cookout, which was held in the shop during A and B lunch. They enjoyed hamburgers and hot dogs prepared by grill master, Kurtis Morgan, along with various other foods and drinks. Following the cookout, students were given trash bags, gloves, and orange vests, which were

provided by Dori Bishop from Highland County Recycling and Litter Prevention. Students split into small groups and covered the majority of Mowrystown's streets, along with Diehl Park. The students enjoyed beautiful weather while working together to fill up countless trash bags. The project was funded by a grant from the Ohio Department of Natural Resources, Division of Recycling and Litter Prevention.

## KYLE JOHNSON RECEIVES PRESTIGIOUS AWARD

Written by: *Danielle Grooms*

On Saturday, April 18, 2009, at the Bright Elementary auditorium, during the intermission of "The Prince and the Pauper", Kyle Johnson was presented with the National Honor Thespian Award. It is the highest award you can receive as a Thespian. It is required that you complete at least 1,200 hours of work for your drama club to be applica-

ble. Kyle had completed well over 1,200 hours, since his sophomore year in the Whiteoak High School Drama Club, to receive this honorable award.

Kyle is the WHS Drama Club president, the WHS JOG president, and is active within the Mowrystown FFA. He works very hard at everything he does. Congratulations, Kyle! You deserve it!

## TROOPER HUGHES VISITS MATH CLASS

On Friday, April 17th Mrs. Fishback's 6th and 7th period classes learned how to measure skid marks. Two policemen came in and showed the students videos about real crashes and how they investigate them. They showed them the formula they use to find out the actual speed the car was going. Then they went outside and one of the officers made skid marks and the students used the formula  $s = \sqrt{rt \cdot D \cdot F}$  and measured the formula is very accurate and the students learned a lot from this.
