Current Events

Tuesday, September the 7th marked one of President Obama's biggest challenges, the back to school speech. Many argued that his sole purpose for giving the speech was to show the children his political agenda. Many compared his action with that of Adolf Hitler when he started "Hitler's Youth." He also started delivering speeches to children to show what he was doing while in control of Germany. Obama's response to the allegations was that he was only trying to tell kids to stay in school and to avoid drugs. Even though some students did not show up at school for the speech, because of the schools' and teachers' decisions to show the televised report, the ones who watched say it had a positive effect on them.

Rewards for the OGT Tutoring Session

Juniors and seniors who still need help passing the OGT will be working with Miss Hostetter during the afternoon. Those who come to ALL the sessions will be rewarded on Fridays with a snack like an ice cream sundae or a nacho party. Those who make it to all the sessions before the OGT will be invited to a pizza party!
